Ted Gerrybolfo
Chairman: assassination
information committee
1214 Third Avenue
New York, N.Y. 10021

July 25, 1982

Dear Mr. Fenton,

After our phone conversation today, it is crystally clear to me, as it will be to many other researchers and citizens I will communicate this to on the many radio shows I do across the country, why you passed the CIA and FBI "security clearance check" which all members of the staff of the House Select Committee on Assassinations were subjected to as pointed in the HSCA Report (Page 7) dated January 25, 1978. I can imagine how very pleased those agencies were having you on the staff. You are, indeed, a "Company man". By refusing to verify to me the fact that when the HSCA sent you & other investigators to New Orleans to view and hear the evidence that Jim Garrison had of a definite mammoth conspiracy involving elements of the CIA, according to what Garrison told me by phone, which I taped, in 1978, that all of you were convinced of this CIA conspiracy to murder President Kennedy. When I asked you about this today, you refused to tell me about it, and this evidence was suppressed totally in the HSCA Final Report. How does it feel to personally know that you, and others, especially chief counsel Robert Blakey, have raped the trust and faith the American people had placed in your hands, that is, to ascertain the full truth about the JFK/King assassinations? You, Blakey, Stokes and others now join the long list of covert artists of the facts, beginning during the "investigation" conducted in 1964 by the Warren Commission. I promise you that I will attempt to expose your HSCA coverup on every radio show I appear on in the future. You are all a genuine disgrace to the country you live in. Words fail to adequately describe what I sense you all on the HSCA really are.

Sincerely in disgust, Ted Gerrybolfo P.S. The truth will out.
